Thank you for choosing Safemaster for your PPE Recertification.

All personal protective equipment must be inspected at intervals not exceeding 6 months, as required by the Occupational Safety & Health Regulations (OHS).

As a Person Conducting a Business or Undertaking (PCBU), you are required to provide safe systems/equipment for work. This obligation extends to ensuring the equipment is maintained and is regularly inspected and recertified to comply with the Australian Standards.

Your personal protective system has been now inspected in accordance with AS/NZS1891.4:2009 and lodged into our recertification database. We will make contact with you **approximately 2 weeks** prior to recertification being due as a reminder service.

Please contact inspections@safemaster.net.au if you have changed your contact details recently. This is important for our technicians to contact you with the right details to avoid any disruption to your operations.

On behalf of everyone at Safemaster, I would like to express my warmest welcome to Safemaster PPE Recertification Program.

Richard Wilkinson
Service Manager
